The right answer is #1 - the employer. The more authority a person has in the workplace, the more . health and safety duties they have. It's important for your safety that you understand everyone's health and safety duties. Duties of the employer. Here are some of the things the OSHA says every employer has to do as part of their job: 1.

Health & Safety at Work - Ministry of Labour

The same thing is true, of course, when it comes to any area of your life in which a "makeover" might be needed. If you are in very bad health — or your physician tells you that certain numbers in your lab reports and exams are "abnormal" — you may become highly motivated to undertake a new exercise, diet, or better-health plan.

Fostering Reflection Skills: The Basics. While reflection has no single, universal definition, Aronson (2011) frames it as the “process of analyzing, questioning, and reframing an experience in order to make an assessment of it for the purposes of learning (reflective learning) and/or improve practice (reflective practice).” It has multiple uses in various contexts.

3. Let students know that stress is a normal reaction to the demands of life; when your brain perceives a threat, your body releases a burst of hormones to fuel your fight/flight/freeze response; and when the threat is gone, your body returns to normal. 4. Let students know that their stress score will change often, depending on life circumstances.
